

GROW YOUR BUSINESS

WITH URBAN BIRD CONTROL

Companies from coast to coast are finding that Bird Control is the ideal add-on business. It's a great way to find new customers, and earn more revenue from your existing customers.

PART 1 Evaluate and Solve Bird Control Problems

Birds are intelligent creatures that present a problem for thousands of building owners, and an opportunity for you. This class gives you the tools to successfully plan and implement a bird control program for your customers. Gain the advantage you need with our one-day, hands-on class.

Bird Barrier products don't harm the birds, they just move them to another location, keeping your customer happy and your business growing.

Using slides, video and hands-on product assembly, you will learn about:

- Bird biology
- Controlling pest birds
- Damage and diseases
- What attracts birds to certain sites
- Mechanical ledge products
- Exclusion Netting
- Safety and cleaning
- Site Evaluation
- Bidding Jobs and writing proposals
- Making a healthy profit in bird control

PART 2 Promote Your Business

Class time is devoted to the business of bird control. You'll discuss strategies proven to win you jobs. In these sections of the class you will:

- Know why customers buy
- Learn how to price jobs
- Get proposal tips
- Develop strategies on finding more prospects
